Optimize your brushing

- Battery life
- Click-on brush head system
- Just one click to change brush heads

Highlights

Sonicare 1100 – a deeper clean

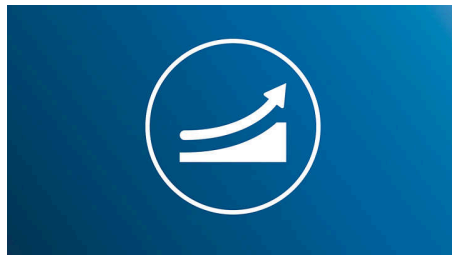

Sonic technology pulses water between your teeth and gums to break up and remove 3x as much plaque along the gumline than a manual toothbrush.

Smart functionalities

With a gentle pulse reminds you to change to a new part of your mouth, and signals when 2 minutes of brushing time is up. This sonic electric toothbrush gives you the most optimal brush, every time.

Ease into your new routine

Starting something new can take some getting used to. Our easy-start program gives you the option of a gradual, gentle increase in brushing power with the first 14 uses with your new toothbrush.

Battery life

Lasts up to 10 days between charges.

Click-on brush head system

This brush head clicks on and off your brush handle for a secure fit and easy maintenance and cleaning. It fits Philips Sonicare toothbrush PowerUp Battery, Essence+/Elite+/CleanCare+ handles.

Philips Sonicare technology

Powerful sonic vibrations whip up your toothpaste into plaque fighting bubbles, and drive them deep between your teeth and along your gum line. At the same time your teeth will experience 31,000 gentle but effective brush strokes. You'll get a month's worth of manual brushing in just 2 minutes.

Whitens your teeth

The Philips Sonicare 2100 removes and reduces recurrence of stains on your teeth, keeping them looking healthier and stronger.

Use at home or on-the-go

The long-lasting battery means it lasts up to 14 days between charges. Perfect for on the go!

Easy to maintain

Dental professionals recommend changing your brush head every 3 months. This brush head clicks on and off your brush handle for a secure fit and easy maintenance and cleaning.
