SCY900/01

## Supports baby's individual drinking rhythm

A nipple that works like a breast

The Natural Response Nipple releases milk only when baby actively drinks. Babies can drink, swallow and breathe using their natural rhythm, like on the breast. Making it easy to combine breast and bottle feeding.

### Easy to combine breast and bottle feeding

- Natural latch on with breast-shaped nipple
- Nipple releases milk when baby actively drinks

### Other benefits

- Simple to use, easy to clean and quick to assemble
- No-drip nipple design prevents spills and lost milk
- Easy to hold even for little hands
- Choose the right nipple flow for your baby
- Compatible across the Philips Avent range
- Natural Response Nipples and Bottles are BPA free\*
- Be patient as baby adjusts

### Vents air away from your baby's tummy

- Designed to reduce colic and discomfort

## Highlights

### Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

### Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

### Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

### Compatible across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it.

### BPA free\*

The Philips Avent Natural bottles and nipples are made of BPA free\* material.
