The most natural way to bottle feed

Natural latch on

Our Natural ultra soft nipple more closely resembles the breast. The wide breast-shaped nipple with flexible spiral design and comfort petals allows natural latch on and makes it easy to combine breast and bottle feeding.

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped nipple
- Skin-soft teat designed for a natural feed

Vents air away from your baby's tummy

- Unique anti-colic valve technology

Other benefits

- Designed for your baby's changing needs

A comfortable and contented feed for your baby

- Flexible spiral design combined with comfort petals

Highlights

Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast. Designed to give a more comfortable and contented feed for your baby.

Skin-soft teat

The skin-soft nipple material closely resembles the feeling of the breast, making it easy for your baby to combine breast and bottle feeding.

Flexible spiral teat design

The spiral design combined with our comfort petals inside the nipple increases softness and the flexibility allowing natural tongue movement without nipple collapse. Designed to give your baby a more comfortable and content feeding.

Anti-colic valve technology

Reduces fussing and discomfort by venting air away from baby's tummy.

Baby's changing needs

The Philips Avent Natural bottle is available in 4 sizes and 7 different nipples for every development stage of your baby. With different nipple softness, flexibility and design and with increasing flow rates and bottle sizes that keep up with your baby's growth and development.
