- Increase massage amplitude and power output
- The light ring on top shows the power output in real-time

Professional massage accessories

- 6 professional massage heads
- Deliver strong penetrating waves while avoid skin allergies
- Enhance the massage amplitude and comfort level

Highlights

SuperDyanmic system

With the powerful dynamic system, the device can provide a 10kg output power at 8mm massage depth, which is an innovative breakthrough.

Ultra compact size

Only 35mm wide, the metallic handle is easy to grasp. The overall size is just 14.5×7.5×3.5cm. It can be put in close fitting sport bags and occupies very little space.

Strength feedback display

Real-time strength feedback shows on light ring with colors. You can monitor the pressure you are using on your body, so that you can adjust your massage plan according to advice of your physio.

Precision metallic parts

The housing is made from refined aluminium which is light weight and strong. The whole dynamic system is made from precision metal. All the parts are not just strong and durable but also perfectly detailed.

Professional accessories

Massage heads are essential for massage guns. This massage gun has 6 massage heads, which can satisfy all sport recovery and daily relaxation purposes.

Professional titanium head

The professional titanium head is popular with physiotherapists. The metal massage head with higher hardness enables the massage gun to reach deep into the muscles, target the deep to tissue layers that ordinary massage heads cannot reach and completely soothe muscle groups. Titanium is the most friendly metal to the body and does not cause discomfort to people with skin allergies.

High elastic rubber ball head

The high elasticity of the rubber complements the vibration frequency of the massage gun, optimizing muscle tissue penetration for the best possible massage effect. The soft rubber surface is easy to clean supporting bacteria and harmful substances removal after long-term use. Protecting the skin's health.

Specifications

General specifications

Net weight: 317g

Gross weight: 740

Product Dimension (LxWxH): 145×75×35 mm

Packaging Dimension(L)*(W)*(H):

205*142*67 mm

Main materials: Aluminum alloy

Color: Dark grey

Quantity of massage heads: 6

Main parameters

Massage amplitude: 8mm

Working voltage: 11.1V

Working power: 25 Watts

Massage frequency: 1600Hz-3200Hz

Battery: 3x 1300mAh

Maximum thrust: 10kg

Charging current: 2A

Charging port: USB Type-C

Charging voltage: 5V (USB C)

Country of origin

Country of origin: China

Service

Warranty period: 2 years
