HX3806/33

Flossing reinvented with Quad Stream technology

Removes up to 99.9% of plaque* in treated areas

Effortlessly thorough cleaning between teeth to improve your gum health. Unique X-shaped Quad Stream tip cleans more area with less effort for more effective flossing every time, so it's easy to get flossing right.

Easy and convenient

- Easy-to-fill 250 ml reservoir
- Effortless technique
- Standard tip for spot cleaning

Faster, more effective flossing

- 2 flossing modes, 3 intensities
- Complete clean in 60 seconds
- Pulse Wave technology guides from tooth to tooth
- Quad Stream technology for faster, more effective flossing

Cordless Power Flosser 3000

Oral Irrigator

HX3806/33

Highlights

Quad Stream technology

Unique X-shaped Quad Stream tip separates flow into 4 water jets, which cover more area between teeth and along the gum line. Get a faster, deeper clean without the hassle of string floss.

Complete clean in 60 seconds

Access those hard-to-reach areas with a nozzle that rotates 360 degrees, so that you can use the device in any orientation. Get a thorough 360° clean in just 60 seconds from start to finish.

Standard tip for spot cleaning

A standard single-stream tip boosts pressure for spot cleaning and removing food debris when you need it.

Pulse Wave technology

Gentle pulses of water keep you going and guide you from tooth to tooth in Deep Clean mode — so you get it right every time.

250ml reservoir

Reservoir capacity of 250 ml holds enough water for a recommended 60-second clean. Simply twist and remove or use the side-fill door for easy refilling.

2 modes, 3 intensities

Choose the clean that suits your smile. Clean mode delivers continuous flow for effective everyday cleaning. Deep Clean pulses for more thorough cleaning. Adjustable intensity level adapts for comfort.

Effortless technique

Just point, press and clean for more effective flossing. Aim the tip between your teeth and along the gumline — and let it do all the work for you!
