#### **Protective massage**

- Smart automation supporting a gentle massage
- Gentle massage accessories

#### **Skin-friendly, compact and portable**

- Skin-friendly touch
- Lightweight and easy to carry around

#### **Comfortable & Warm**

- Thermostatically hot compress

# Highlights

## Thermostatically hot compress

Hot compress can promote blood circulation, effectively relieving muscle tension and supporting pain relief. Feel more relaxed, relieving the fatigue of the day. Supporting simultaneous massage and hot compress functions.

## Special gentle accessories

Soft and soothing. The included massage accessories have been carefully designed, offering a buffering role to avoid direct force acting on the body. Skin-friendly materials, soft and non-allergenic. Easy to attach, detach and clean.

## Lightweight and easy to carry

37mm diameter grip, compact ergonomic design. The weight of the whole device is only 290g. You can easily grasp it with one hand, click and use. Easy to store and carry with you all day long.

## Skin-friendly touch

The rubber coating offers a comfortable grip and provides an excellent touch.

## Gentle mode

Innovative AI chip algorithm, customised frequency curve and automatic frequency switching are responsible for massage modes that can also be used on sensitive parts.

Effectively removing fatigue anywhere.
