

**PHILIPS****AVENT****Newborn Gift Set****Natural Response****4 Bottles****ultra soft pacifier****Bottle brush**

SCD838/11

## Supports baby's individual drinking rhythm

### A nipple that works like a breast

This Newborn Gift Set is ideal to start feeding & soothing. With Natural Response Nipple babies can drink at their own rhythm like on the breast, easy to combine breast and bottle feeding. Finding the right nipple is important. See below.

**Easy to combine breast and bottle feeding**

- Natural latch on with breast-shaped nipple
- Nipple releases milk when baby actively drinks

**Other benefits**

- Same products, new navigation
- ultra soft pacifier, for your baby's sensitive skin
- Choose the right nipple flow for your baby
- No-drip nipple design prevents spills and lost milk
- Compatible across the Philips Avent range
- Easy to hold even for little hands
- Simple to use, easy to clean and quick to assemble
- Natural Response Nipples and Bottles are BPA free\*
- Bottle brush with curved head for easy cleaning

**Vents air away from your baby's tummy****Finding the right nipple is important**

# Highlights

## Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

## Natural latch on

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

## Finding the right nipple is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a nipple with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

## Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

## No-drip nipple

The nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

## Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

## Same products, new navigation

We have moved to a pace-based flow navigation system. Start with the nipple that comes with the bottle. Try a lower flow if milk is leaking from baby's mouth or baby is gulping. Try a higher flow if baby is playing with the nipple instead of drinking or seems frustrated. As we make this update, you may receive either style of pack.

## Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

## Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

# Highlights

## ultra soft pacifier

The super soft, flexible shield follows the shape of your baby's cheeks, leaving fewer marks and causing less skin irritation, for more comfortable soothing.\*

## Bottle brush

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.\*

## Compatible across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it.

## BPA free\*

The Philips Avent Natural bottles and nipples are made of BPA free\* material.

## Be patient as baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.
