Reassurance Any Time, Anywhere

An eye on your baby, at home and away

Keep an eye on your baby from anywhere with the Philips Avent Connected Baby Monitor. Our Secure Connect System keeps you linked to your little one throughout your home. And with the Baby Monitor+ app, you can check in from anywhere.

Connect from anywhere

- Designed to always keep you connected to baby
- Full HD camera with night vision and digital zoom

Reassurance day and night

- See every wiggle, hear every giggle
- Up to 400 metres of range at home, unlimited range beyond
- Up to 12 hours of cordless monitoring with the parent unit

Supporting your family

- Built-in room thermometer
- Instant connection between parent unit and baby unit
- Peaceful nap times with soothing ambient nightlight

Monitor your way

- Speak and listen to your little one at the same time
- Sounds to settle and soothe

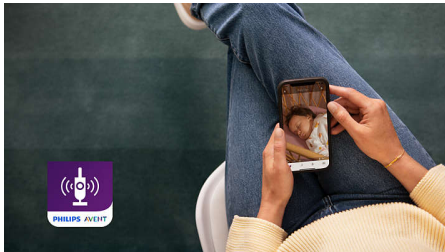

Highlights

Easy to use

Start monitoring straight out of the box with the monitor's pre-connected parent unit and baby unit. Easily set up with or without Wi-Fi and pair the Baby Monitor+ app when it suits you best.

Baby Monitor+ app

See and hear your little one at home and away with the Philips Avent Baby Monitor+ app. Using Wi-Fi or mobile Internet you can monitor and soothe from anywhere.

Soothing ambient nightlight

Give your little one's room a comforting glow with the baby unit's integrated ambient nightlight. Turn it on and off or adjust its glow from the parent unit and the Baby Monitor+ app.

Secure Connect System

Our very own Secure Connect System uses multiple encrypted links from the baby unit to the parent unit and the app. For a reassuringly robust and private connection.

Up to 12 hours of cordless use

The rechargeable parent unit offers up to 12 hours of battery life** and a 4.3 inch colour display. So, you can easily monitor all day long and well into your evening before plugging it in.

True talk back

Our baby monitor only uses true talk back, so with the push of a button, you and your baby can hear each other sing, soothe or giggle without interruption.

Baby unit with full HD

The baby unit uses a full HD camera with night vision and digital zoom, bringing clear pictures of your little one's room day and night.

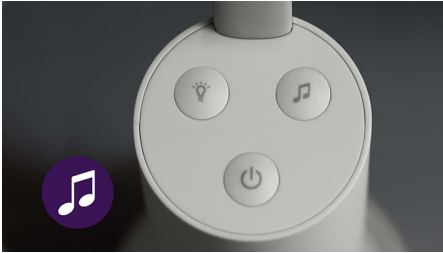

Long-range monitoring

Stay confidently connected with the parent unit giving up to 400 metres of range* around your home. And the Baby Monitor+ app using mobile Internet or Wi-Fi to provide unlimited range anywhere else.

Highlights

Soothing sounds

Choose between 15 soothing tracks from garden birdsong and night-time nature, to lullabies including Rock-a-Bye Baby. And record your own to play back on demand. After all, what is better than the sound of a parent's voice?

Built-in room thermometer

With high and low temperature alerts, the integrated room thermometer helps you keep your little one snug as a bug. Just the right amount of cosy for a perfect rest.
